Create the ReAct Agent

Miguel Otero Pedrido

Senior ML / AI Engineer at Dressipi

Founder @ The Neural Maze

Create the ReAct Agent

Using the **ReAct Agent** implementation from Module 4, we will create a ReAct Agent that leverages the following tools:

- STORIES TOOL

- COMMENT TOOL

- CONTENT TOOL

Based on the user's message, the Agent will determine which of the three Tools is the most appropriate to use for the task.
